

CP38E (Vegetative Cover-Native Grass Already Established)

CRP Mid Contract Management

Name: _____

See attached aerial photo for areas to be treated.

Field(s): _____

Tract: _____

CP 38E (Vegetative Cover-Native Grass Already Established)

– MCM will be applied in years 1, 3, and 5 of the contract.

(choose one)

	MCM Options	Field #	Acres
	Disk		
	Disk & Interseed		
	Burn		
	Burn & Interseed		

* See Interseeding on page 1.

Begin MCM in _____.

* See following special interseeding information.

- According to NRCS FOTG (327) Conservation Cover-standard, interseeding requires that existing vegetation be weakened prior to interseeding. For CRP, the stand may be weakened by disking, prescribed fire or chemical application prior to the interseeding operation.
 - IF the stand was hayed or grazed, this also meets the criteria that stand be weakened prior to interseeding.
- Time periods for CRP interseeding of introduced forbs and legumes: August 2 to September 30 or March 1 to May 14.
- Time periods for CRP interseeding of native forbs and legumes: April 15 to May 14.
